

# **COMPREHENSIVE COURSES OF SURGICAL ANATOMY AND OPEN VASCULAR SURGERY TECHNIQUES**

## **Course II - Masterclass Vascular Access**

**Berne, April 29 – April 30, 2026**

*Jürg Schmidli*

*Corinne Kohler*

*Pascal Kissling*

## **Welcome**

*Dear Colleagues,*

on behalf of the faculty and organisers, it is a great privilege and honour to warmly welcome you to the comprehensive basic and advanced courses on vascular surgical anatomy and open surgical techniques. These courses, unique in the world, have proven over the last decades to be very effective training methods for vascular surgeons.

The main feature is the intensive supervision by multilingual tutors with a lot of experience in vascular surgery and in training. The close tutor-participant interaction guarantees an intensive learning process.

Intensive discussions are encouraged in a relaxed training atmosphere. There is only a limited number of slots available, so please register early!

Join us for an enriching learning experience. We hope that you will be enthusiastic about the Courses 2026 as we are and look forward meeting you there!

For the executive board of VASCULAR INTERNATIONAL and the faculty

Prof. Jürg Schmidli, Berne  
Dr. Corinne Kohler, Zurich  
Dr. Pascal Kissling, Solothurn

The comprehensive basic and advanced courses on vascular surgical anatomy and open surgical techniques will be organised for the 26<sup>th</sup> time by VASCULAR INTERNATIONAL School. Back then, we started with the access to leg arteries course, followed by the Vascular Access Masterclass in 2009 (for haemodialysis access). In 2017, we finally introduced the course on the thoracic and thoracoabdominal aorta and the supra-aortic vessels.

The school's goals are teaching of topographical and surgical anatomy, surgical basic practices, advanced open surgical techniques and innovations.

The courses are based on practical dissection of 5-7 cadavers (legs, arms, thoracic aorta and supra-aortic arteries) under the guidance of expert tutors.

The arm and leg courses are particularly recommended for Vascular Surgeons in training. The thoracic course is designated for Advanced Vascular and Cardiac Surgeons.

- The official language is English.
- The number of participants is limited for technical reasons.
- **Please, take your magnifying glasses with you.**

## **ACCESS COURSES 2026 / Fee / Convenor**

### **Course II April 29-30 Masterclass Vascular Access**

**Fee:** CHF 1'450(13 CME Credits)

The fee includes:

- Coffee-breaks and lunches
- Disposables and didactic materials

**Convenor**

**Corinne Kohler, Zurich**

April 27-28, 2026  
**Course II - Masterclass Vascular Access**

**Tutors: Matthias K. Widmer  
Andrej Isaak**
